Title of the piece: "Cold Fire in the Snow"

In my piece I used a picture of the fire as seen from our swing from our snowy day this year. I have a good memory of this day since I got to spend it with my wife at home and she's usually at school teaching during the day. I used the color element to show that even though the fire was warm, we were still freezing outside so I edited it to be blue. With the form I left the trees in the background to give the picture some depth to show that you are quite close to it. I made the fire itself a little darker for the texture so it was almost as if you could reach out and touch it.
